ABOUT OUR PERFUMES:

As a woman, I love to smell beautiful. I adore having a scent that suits me and feels good on my skin. However, as I've gotten older I've become too sensitive for synthetic perfumes, which is why Sacred Essence Perfumes were created.

Working with Australian Bush Flower Essences for over 20 years gave me a good understanding of vibrational remedies and how effective they are at gently shifting emotional 'energy states'.

Everything in life carries a vibrational frequency, from solid objects such as a chair, to soundwaves that flow through the air. Everything resonates at a vibrational frequency.

The Sacred Essence range of Perfumes has been created to work on the vibrational frequency of 'intention'. Each one has a specific intention which helps you create your day.

I hope you have as much fun exploring our range of perfumes as I have.

Many blessings,

Julianne
